

Master's applicants: have you been notified that you have been admitted to ASU?

4 things you need to do now to move ahead with your ASU enrollment

1. Check your email and MyASU for time-sensitive notifications	2. Pay your university enrollment deposit	3. Request your I-20 so you can apply for a visa	4. Schedule an appointment with your academic advisor
<p><u>Log into MyASU</u> to review Priority Tasks, take care of finances, get information on your academic department, etc. Your ASU email address is not active until shortly before classes start, so make sure your “forwarding email” is set to a personal account that you access often.</p>	<p>Pay a \$250 university enrollment deposit to confirm your spot at ASU. You may need to wait 48 hours after submitting the deposit to begin your next steps toward enrollment. Students admitted to the W. P. Carey School of Business pay a \$500–\$1,000 program enrollment deposit instead.</p>	<p>Follow the actions on your I-20 tracker within <u>MyASU</u>. The steps include filling out the financial guarantee form, providing bank statements (or sponsor letter for sponsored students) and uploading a copy of your passport.</p>	<p>You can find the name, email, and phone number for your academic advisor in the Academic Support Team box on <u>MyASU</u>. Click on the Academic Advisor option there to find this contact information and schedule your appointment. They will help you register for courses.</p>
<p>Top tip</p> <p>Don't forget to download and print/save your admit letter, which is available on <u>MyASU</u>, so you have it for travel to the USA.</p>	<p>Top tip</p> <p>Online payments can be made through <u>MyASU</u> (see "My Admission and Orientation" box). Only Visa or MasterCard debit and credit cards are accepted.</p>	<p>Top tip</p> <p><u>MyASU</u> only allows the upload of each document type once, so make sure your financial documents show sufficient funding prior to uploading.</p>	<p>Top tip</p> <p>Note that you may have a hold on your enrollment that will need to be completed before registering for classes.</p>

We invite you to watch our guide to using MyASU here: <https://www.youtube.com/watch?v=w2z8KA-kW1k>
