“Barrett has been a huge enhancement to my time at ASU by providing me a community of like-minded students.

Everyone in Barrett is ambitious and supports each other to do well in and out of school. Barrett synthesized really well with my academics, allowing me to take honors classes for both of the majors I pursued. My thesis as a senior allowed me to do sports economics research I wouldn't have been able to do otherwise, and completing it was the most fulfilling experience of my time in college.”
