Key:

A: Foundation Certificate for Arts and Humanities
B: Foundation Certificate for Business and Social Sciences
S: Foundation Certificate for Science and Engineering

Business and Finance

MA (Hons) Business & Management	B
MA (Hons) Business & Management and Business Economics	B
MA (Hons) Business & Management and Economics	B
MA (Hons) Business & Management and Politics	B
MA (Hons) Business Economics	B
MA (Hons) Business Economics and Politics	B
MA (Hons) Business Economics and Sociology	B

Computing

BSc (Hons) Computing Science	S
BSc (Hons) Software Engineering	S

Internships: selected pathway courses have the option of an integrated virtual internship as an extra final term in the UK. This finishes in time for you to still start your university degree on schedule.

Engineering

BEng (Hons) Aeronautical Engineering	S
BEng (Hons) Biomedical Engineering	S
BEng (Hons) Civil Engineering	S
BEng (Hons) Electronics and Electrical Engineering	S
BEng (Hons) Mechanical Design Engineering	S
BEng (Hons) Mechanical Engineering	S
BEng (Hons) Mechanical Engineering with Aeronautics	S
BEng (Hons) Mechatronics	S
BEng (Hons) Product Design Engineering[1]	S
BEng (Hons) Robotics & Artificial Intelligence	S
BEng (Hons) Software Engineering	S

Environment and Agriculture

BSc (Hons) Environmental Geoscience	S
BSc (Hons) Environmental Science & Sustainability[2]	S
BSc (Hons) Geography	S
MA (Hons) Global Sustainable Development	S
BSc (Hons) Marine and Freshwater Biology	S

Mathematics

BSc (Hons) Chemistry and Mathematics	S
BSc (Hons) Mathematics	S
BSc (Hons) Mathematics and Physics	S
BSc (Hons) Mathematics and Statistics	S
BSc (Hons) Statistics and Data Analytics	S

Science and Health

BEng (Hons) Aerospace Systems	S
BSc (Hons) Anatomy	S
BSc (Hons) Biochemistry	S
BEng (Hons) Biomedical Engineering	S
BSc (Hons) Chemistry	S
BSc (Hons) Chemistry and Mathematics	S
BSc (Hons) Chemistry with Medicinal Chemistry	S
BSc (Hons) Genetics	S
BSc (Hons) Geology	S
BSc (Hons) Human Biology and Physiology	S
BSc (Hons) Immunology	S
BSc (Hons) Marine and Freshwater Biology	S
BSc (Hons) Microbiology	S
BSc (Hons) Molecular and Cellular Biology	S
BSc (Hons) Molecular and Cellular Biology (with Biotechnology)	S
BSc (Hons) Molecular and Cellular Biology (with Plant Science)	S
BSc (Hons) Neuroscience	S
BSc (Hons) Pharmacology	S
BSc (Hons) Physics	S
BSc (Hons) Physics with Astrophysics	S
BSc (Hons) Sport & Excercise Science	S
BSc (Hons) Theoretical Physics	S
BSc (Hons) Veterinary Biosciences	S
BSc (Hons) Zoology	S

Social Science and Humanities

MA (Hons) Business & Management and Business Economics	B
MA (Hons) Business & Management and Economics	B
MA (Hons) Business & Management and Politics	B
MA (Hons) Business Economics	B
MA (Hons) Business Economics and Economic and Social History	B

			July 2028 > August 2029		
	4 terms	£32,320	February 2028 > June 2029	ⓘ	2 terms of Extended English and Skills modules
			June 2028 > August 2029		

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/glasgow/ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Glasgow International College

Foundation Certificate
for Arts and Humanities

Common modules taken by all students:
- English for Academic Purposes
- English Language and Linguistics
- English Literature
- Extended Project
- Introduction to the History of Art

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ Optional integrated online internship
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these 3 modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Science

Students with less than UKVI IELTS 5.5: you will typically take Extended English and Skills modules to improve your English language and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 and 3
- Independent and Collaborative Study
- Reading and Writing 2 and 3
- Speaking and Listening 2 and 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Finance and Marketing
Learn about finance and marketing using contemporary examples and applications

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications
Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

Engineering
Study the key principles of engineering, including statics, dynamics, thermofluids and electronics.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

English Language and Linguistics
Learn about the structure and historical development of English sounds, words and grammar and how to discuss, describe and analyse language.

English Literature
Learn about a range of writers and texts, both novels and poetry, and how to reflect critically and theoretically on them.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a topic that matches your degree and career goals, and personal interests.

Geography and Earth Science
Discover the history of the Earth, its system development and processes, and the evolution of life and natural environments.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to the History of Art
Learn about the key periods and themes in History of Art and World Cultures, and develop an appreciation and understanding of major aspects of a culture's material heritage.

Introduction to Sociology
Explore the classic and contemporary social theories, and the effects of globalisation and global economics.

Laboratory Skills and Scientific Writing
Develop practical laboratory skills and lab report writing, plus an awareness of laboratory safety procedures.

Management and Organisational Behaviour
Learn about organisational behaviour and management while developing your analytical skills in a business context

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Physics
Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Politics
Learn about democratic, authoritarian and hybrid political systems, and about political institutions and cultures.

Practical Skills and Applications
Develop your understanding of experimental procedures in a laboratory setting and learn to use a range of mathematical and statistical tools.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Programming Practical Applications
Develop practical skills in program evaluation, debugging, algorithm construction and program efficiency.

Programming Theory
Develop your knowledge and understanding of the core computational theoretical skills involved in programming.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Science and Society
Investigate and critique contemporary scientific issues and debates verbally and in writing.

Social Science
Evaluate the aims, methods and applications of social scientific research across the social sciences, with a particular emphasis on sociology

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

Find out more at:
kaplanpathways.com/internship

Personal development activities (all courses)

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

5.0 overall with no less than 5.0 in any skill	2.5 terms	£30,090	October 2027 > August 2028		0.5 terms of Extended English and Skills modules
5.0 overall with no less than 4.5 in any skill	3 terms	£30,090	September 2027 > August 2028		1 term of Extended English and Skills modules
> Your Pre-Master's options for degree entry in September 2029					
5.0 overall with no less than 5.0 in any skill	2.5 terms	£30,090	July 2028 > June 2029	ⓘ	0.5 terms of Extended English and Skills modules
5.0 overall with no less than 4.5 in any skill	3 terms	£30,090	June 2028 > June 2029	ⓘ	1 term of Extended English and Skills modules
4.5 overall with no less than 4.5 in any skill	3.5 terms	£35,105	April 2028 > June 2029 July 2028 > August 2029	ⓘ	1.5 terms of Extended English and Skills modules
4.5 overall with no less than 4.0 in any skill	4 terms	£39,060	February 2028 > June 2029 June 2028 > August 2029	ⓘ	2 terms of Extended English and Skills modules

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/glasgow/pg-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Glasgow International College

Pre-Master's
for Arts and Humanities

Common modules taken by all students:
- English for Academic Purposes
- Research Project

You will also take 2 of the following modules to prepare for postgraduate study†:
- Accounting and Finance
- Advanced Social Science
- Advanced Statistics
- Critical Thinking for Academic Writing
- Organisational Management
- Philosophy, History and Culture
- Scottish, European and International Law

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ **Optional integrated online internship**
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the postgraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will also take Extended English and Skills modules before the modules to the left.

Students with UKVI IELTS 5.0 will typically take the following as part of a 2.5 or 3-term course:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.5 will typically take the following as part of a 3.5 or 4-term course:
- English for Academic Study 2 and 3
- Independent and Collaborative Study
- Reading and Writing 2 and 3
- Speaking and Listening 2 and 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Accounting and Finance
Evaluate various financial and accounting concepts, models and techniques, and apply them to a firm's strategic decision making.

Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

Critical Reading, Writing and Reasoning
for Higher Education
Enhance your ability to read and understand complex ideas in English, and learn how to compose convincing written arguments

Critical Thinking for Academic Writing
To develop critical thinking skills on selected relevant academic research, and to present this critique orally and in writing.

Engineering, Science and Society
Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Grammar and
Sentence Structure
The module enhances your linguistic ability and knowledge of the complex English grammar and sentence structure used in formal academic writing and speaking texts.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Organisational Management
Evaluate the key issues, theories and techniques relating to organisational behaviour, environmental analysis and global strategy.

Philosophy, History and Culture
Explore Western philosophy and its history, and analyse events and developments in your degree area in a historical and cultural context.

Practical Training for Science and Engineering Research
Research required skills, complete a skills audit, and critically reflect on your participation in relevant training activities for progression in your area of study.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Public Speaking
Develop your skills in planning, writing and delivering speeches in a variety of genres.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Scottish, European and International Law
Apply legal principles in the areas of UK and Scottish constitutional law, European Union Law and Public International Law.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more at:
kaplanpathways.com/internship

Personal development activities (all courses)

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

Glasgow International College is operated by Kaplan Glasgow Limited (Company number: 05976922).
Registered office address: Palace House, 3 Cathedral Street, London SE1 9DE, United Kingdom.
