

Kaplan International College London

Course information: 2024-25

This booklet contains information about pathway courses taught at Kaplan International College London in the UK, with progression to it's partner universities. Choose your preferred university and degree, and see which pathway course you need to pass, to qualify for entry. You can also see further information about the pathway courses, including tuition fees, start dates, entry requirements, internship options and module summaries.

Course delivery

As much as possible, all Foundation Certificate and International Year One courses are taught in person at Kaplan International College London. In exceptional cases however, some classes may be taught at an alternative venue nearby.

Costs of studying abroad: For details about the cost of studying in London, in addition to pathway course tuition fees, see: kaplanpathways.com/london-study-costs

Accepted English tests: we accept UKVI IELTS and several alternatives. For full details, see: kaplanpathways.com/uk/ielts/

Your path to university:

Internships: all pathway course subjects have the option of an integrated virtual internship as an extra final term in the UK.

	4 terms	£27,960	February 2025 > May 2026	i	2 terms of Extended English and Skills modules
			June 2025 > August 2026		

Note: courses leading to Fashion Design degrees at University of Westminster require an overall IELTS level of 0.5 higher on all course durations, for example: 2 terms: 6.0 overall with no less than 5.0 in any skill or 4 terms: 4.5 overall with no less than 4.0 in any skill.

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options, you need to have completed high school at the required level. For requirements specific to your country, select a degree and pathway course from our online Degree Finder: kaplanpathways.com/kic/ug-degrees

Course length: this is influenced by your English language score submitted at the admissions stage. When you enrol, we'll check your English and academic level again to ensure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:

- Creative Practice and Portfolio
- English for Academic Purposes

You will also take 2 of the following modules that fit your degree and career goals[†]:

- Entrepreneurship
- People, Culture and Society
- Practical Skills for Art and Design
- Visual Culture

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship

For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:

- apply and further develop your English language in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5:

you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:

- Critical Reading, Writing and Reasoning for Higher Education
- Art, Design and Media

Plus 2 of these modules:

- Contemporary Art in Context
- Digital Applications
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5:

you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Students with less than UKVI IELTS 5.5:

you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

Leading to degrees at: University of Westminster

Minimum English level: UKVI IELTS score*	Course length	Course tuition	Course start > Course end	Add-ons	Extra support
> Your International Year One options for degree entry in September 2025					
5.5 overall with no less than 5.0 in any skill	2 terms	£17,760	September 2024 > May 2025	i	
			January 2025 > August 2025

4.5 overall with no less than 4.0 in any skill	3 terms	£20,670	June 2025 > May 2026	i	1 term of modules from Enhancement and Extended English and Skills options
4.0 overall with no less than 4.0 in any skill	3.5 terms	£24,115	April 2025 > May 2026	i	1.5 terms of Extended English and Skills modules
			July 2025 > August 2026		
	4 terms	£27,540	February 2025 > May 2026	i	2 terms of Extended English and Skills modules
			June 2025 > August 2026		

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: [kaplanpathways.com/uk/ielts/](https://www.kaplanpathways.com/uk/ielts/)

Academic entry requirements: for all course options, you need to have completed high school at the required level. For requirements specific to your country, select a degree and pathway course from our online Degree Finder: [kaplanpathways.com/kic/ug-degrees](https://www.kaplanpathways.com/kic/ug-degrees)

Course length: this is influenced by your English language score submitted at the admissions stage. When you enrol, we'll check your English and academic level again to ensure you're on the most suitable study plan, with modules that best fit your skills and goals.

All students will take the following modules:

- Computer Architecture
- English for Academic Purposes
- Fundamentals of Artificial Intelligence
- Introduction to Databases
- Introduction to Programming
- Mathematics for Computing
- Object Oriented Programming
- Web Development

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship

For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:

- apply and further develop your English language in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:

- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these modules:

- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

- Study Skills Preparation

Biology

Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Organisations and Management

Examine key concepts in management theory and practice, and discuss issues relating to management in modern organisations.

Chemistry

Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Computer Architecture

Discover the internal structure of microprocessor-based computer systems, and develop knowledge about the operation of low-level hardware and software components.

Contemporary Global Issues

Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Creative Practice and Portfolio

Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education

Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications

Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Economics

Gain an understanding of macro and micro-economics, and explore current trends and issues in the field.

Electrical and Electronic Engineering Principles 1

Fundamentals principles of electrical and electromagnetic signals, and electronic components and circuit design.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship

Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project

Learn how to plan, carry out and report an extended project; you can choose a project topic that matches your degree and career goals, and personal interests.

Financial Accounting

Learn about standard accounting conventions, and the role of financial accounting within organisation.

Fundamentals of Artificial Intelligence

Gain an understanding of the basic concepts, processes and uses of AI, as well as design and implement a variety of learning systems.

Historical Perspectives

Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study

Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology

Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Mathematics

Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to Databases

Have the opportunity to construct conceptual data models, and to design and implement a data model for an information system.

Introduction to Marketing Principles and Consumer Behaviour

Learn about basic theories of marketing and consumer behaviour, using real-world examples and individual consumer experiences.

Introduction to Programming

Develop problem-solving and analytical skills, combined with an understanding of fundamental programming concepts, algorithms and data structures.

Logic and Critical Thinking

Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Management Accounting and Financial Management

Gain an understanding of key issues in management accounting, process costing, and profitability analysis.

Mathematics

Develop your mathematical skillset in areas such as algebra, decision maths, probabilities and statistics.

Mathematics for Computing

Develop an understanding of the fundamental aspects of mathematical concepts related to computing.

Mathematics for Engineering

Learn mathematical methods, symbolism and notation of engineering, as well as calculus differentiations, integration and differential equations.

Mechanical Stress and Dynamics

Develop an understanding of dynamics including stress and strain, shear force and bending, and Newton's laws of motion, momentum and force impulse.

Object Oriented Programming

Learn the fundamental principles of object-oriented programming using the C++ language.

Organisational Behaviour

Gain an understanding of management of work in organisations, and human resources and organisations in a global context.

People, Culture and Society

Learn about the history, theories and issues that relate to human culture and society around the world.

Physics

Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Practical Skills for Art and Design

Develop your practical Art and Design skills through workshops and portfolio development opportunities.

Preparatory Mathematics

Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics

Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Programming

Learn the basics of programming, engineering principles in the software industry, and how to use software systems to solve engineering problems.

Quantitative Methods and Information Systems for Business

Learn quantitative techniques used in industry, and analyse and interpret data and information systems in a business context.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Design and Development

Learn about the methods, tools, manufacturing techniques and materials used in engineering design, planning and implementation of a practical group project.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Engage in interactive projects that integrate practical, real-life situations with your knowledge of business theory.

Understand fluid dynamics and thermodynamic principles, and analyse engineering problems in context.

Learn more about the culture and society of the UK, and how it differs from others.

Using an annotated visual research journal, evaluate key practitioners and movements and their historical, cultural and political contexts.

Create a high-quality website, incorporating developed web-based content using a web IDE and content management system. thermodynamic principles, and analyse engineering problems in context.

While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more:
kaplanpathways.com/internship

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Course delivery

All Pre-Master's and Pre-Doctorate courses are taught in person at Kaplan International College London as much as possible. In exceptional cases however, some classes may be taught at an alternative venue nearby.

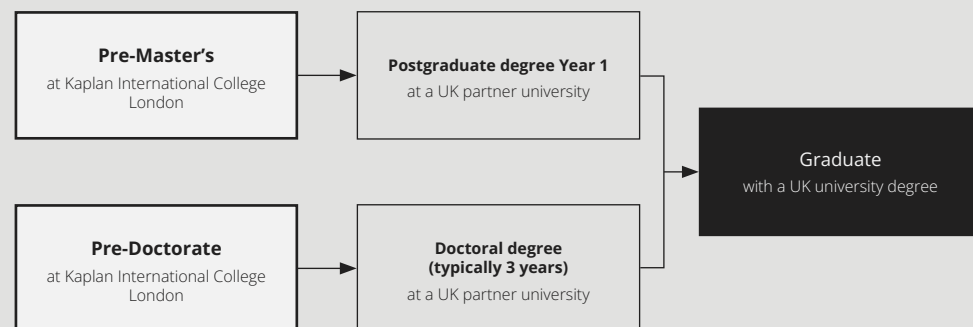

Costs of studying abroad: For details about the cost of studying in London, in addition to pathway course tuition fees, see: kaplanpathways.com/london-study-costs

Accepted English tests: we accept UKVI IELTS and several alternatives. For full details, see: kaplanpathways.com/uk/ielts/

Guaranteed interview

On the Pre-Doctorate, when you successfully complete your course, you are guaranteed an interview at one of our partner universities where your research areas match.

Your path to university:

Internships: all pathway course subjects have the option of an integrated virtual internship as an extra final term in the UK.

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry level: for all courses, you need to have completed 3+ years of higher education in a suitable subject. For requirements specific to your country, select a degree and pathway course from our online Degree Finder: kaplanpathways.com/kicl/pg-degrees

Course length: this is influenced by your English language score submitted at the admissions stage. When you enrol, we'll check your English and academic level again to ensure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:

- English for Academic Purposes
- Research Project

You will also take 2 of the following modules to prepare for postgraduate study†:

- Advanced Social Science
- Advanced Statistics
- Philosophy, History and Culture
- Project Management
- Strategic Management
- UK Society and Culture (Advanced)

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship

For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:

- apply and further develop your English language in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree

See the postgraduate module summaries section for more details.

Extra support: for all courses listed, you will also take Extended English and Skills modules before the modules to the left.

Students with UKVI IELTS 5.0 will typically take these additional modules as part of a 2.5 or 3-term course:

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.5 will typically take these additional modules as part of a 3.5 or 4-term course:

- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Leading to degrees at: University of Birmingham | City, University of London | Cranfield University | Queen Mary University of London | University of Westminster | University of York

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Mathematics

You'll develop a wide range of mathematical and analytical skills essential for postgraduate study in mathematics, business and related disciplines.

Advanced Social Science

Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics

Develop a comprehensive mathematical skillset, including the analytical skills required for postgraduate study.

Engineering, Science and Society

Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture

Explore Western philosophy and its history, and analyse events and developments in your degree in a historical and cultural context.

Project Management

Gain key skills in project management, and apply your knowledge to a project based on emerging technologies.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project

Plan, execute and report a comprehensive research project; you'll choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management

Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)

Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Online internship

While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more:

kaplanpathways.com/internship

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start a career.

Pre-Doctorate

A Pre-Doctorate will help you prepare for a doctoral degree in the UK. If you successfully complete your course, you'll be guaranteed an interview at one of our partner universities, provided your research area matches their research priorities.

> kaplanpathways.com/pre-doc/london

1/1

Doctoral study destination:

Previous KIC London Pre-Doc students have gone on to study for their doctoral degree at a wide range of universities including, University of Aberdeen, Cranfield University, University of Glasgow, Loughborough University, Newcastle University, University of Nottingham and University of York. We can also help you to apply for entry to doctoral degrees at other universities in the UK.

Minimum English level: UKVI IELTS score*	Course length	Course tuition	Course start > Course end	Extra support
> Your Pre-Doctorate options for degree entry in January 2025				
6.0 overall with no less than 6.0 in any skill	1 term	£5,900	September 2024 > December 2024	
> Your Pre-Doctorate options for degree entry in September 2025				
6.0 overall with no less than 6.0 in any skill	1 term	£5,900	May 2025 > July 2025	
5.5 overall with no less than 5.5 in any skill	2 terms	£9,080	February 2025 > July 2025	1 term of Extended English and Skills modules
5.5 overall with no less than 5.0 in any skill	3 terms	£11,520	October 2024 > July 2025	2 terms of Extended English and Skills modules
> Your Pre-Doctorate options for degree entry in January 2026				
5.5 overall with no less than 5.5 in any skill	2 terms	£8,730	June 2025 > December 2025	1 term of Extended English and Skills modules

All students will take these core modules:

- Academic Writing and Communication Skills
- Research Proposal Design for Doctoral Study
- The Doctoral Candidate

If you're on a 2-term course, you'll also study:

- Critical Reading, Writing and Reasoning for Higher Education 2
- English for Academic Study 3
- Reading and Writing 3
- Speaking and Listening 3

If you're on a 3-term course, you'll study all of the modules to the left, plus:

- Critical Reading, Writing and Reasoning for Higher Education 1
- English for Academic Study 2
- Reading and Writing 2
- Speaking and Listening 2

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Pre-Doctorate module summaries

1/1

Kaplan International College London
Palace House
3 Cathedral Street
London SE1 9DE
United Kingdom

Office for Students (OfS): Kaplan International College London is registered with the Office for Students. This means that teaching and support have met the required standards. It also gives students the right to work part-time in the UK during term time, and full-time during holiday periods.

This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

Kaplan International College London is operated by Kaplan International College London Limited (company number: 06533974), with registered address: Palace House, 3 Cathedral Street, London SE1 9DE, United Kingdom.
