			June 2028 > August 2029		

***** UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/nottingham-trent/ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:
- Creative Practice and Portfolio
- English for Academic Purposes

You will also take 2 of the following modules that fit your degree and career goals†:
- Entrepreneurship
- Intermediate Digital Applications
- People, Culture and Society
- Practical Skills for Art and Design
- Visual Culture

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ Optional integrated online internship
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.0: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Art, Design and Media
- Critical Reading, Writing and Reasoning for Higher Education

Plus 2 of these modules:
- Digital Applications
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.0: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5, plus students with UKVI IELTS 4.0 on a 3-term course, will typically take:
- Art, Design and Media
- English for Academic Study 3
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 on a 3.5 or 4-term course will typically take:
- Art, Design and Media
- English for Academic Study 2 + English for Academic Study 3
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

ⓘ **Optional integrated online internship**
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5:
you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Science
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5:
you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

- Study Skills Preparation

Accounting
Learn the main principles and techniques used for financial reporting, analysis, and management accounting in a business context.

Applied Software Engineering using Object-Orientated Programming
Master object-oriented programming (OOP) principles and apply them in designing and implementing simple applications.

Art, Design and Media
Explore a range of materials, workshop techniques, processes and practical skills, and begin to develop your research, interpretation and critical evaluation skills.

Biology
Gain an understanding of biological systems and organisms, and learn about key laboratory processes.

Business Organisations and Management
Examine key concepts in management theory and practice, and discuss issues relating to management in modern organisations.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Creative Practice and Portfolio
Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Historical Perspectives
Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Systems Analysis and Design
Explore conceptual data models and the use of system blueprints.

Information Technology
Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Digital Applications
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to Information Systems Analysis
Develop an understanding of the main principles of conceptual systems modelling, and utilise traditional structured approaches to information systems analysis and design.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Marketing
Gain a comprehensive understanding of the main principles of marketing. Learn the skills to analyse and evaluate real-world applications of marketing concepts.

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Maths for Computing 1
Develop relevant mathematics skills to solve basic computing related problems.

Maths for Computing 2
Further develop and apply mathematical skills used to solve a range of problems in a computing context.

Networking
Gain an understanding of the key theories relating to contemporary computer networks.

Organisational Behaviour
Explore the effects of managements, human resources and organisations in a global context.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of areas such as astrophysics, electromagnetism, mechanics and thermodynamics.

Practical Skills for Art and Design
Develop your practical Art and Design skills through workshops and portfolio development opportunities.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Python Programming and Computer Technology
Create basic programming algorithms to solve problems, and develop an awareness of how computer systems work at a fundamental level.

Quantitative Methods
Learn how to analyse business data using quantitative techniques. Understand how forecasting is used in a business context using data from a number of sources.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Software Design and Implementation
Discover the structure of procedural code and object-orientated programme design.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Undergraduate module summaries

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

The Business Environment
Understand how organisations work within their wider economic, environmental and social context, and how this impacts their decision making.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Visual Culture
Using an annotated visual research journal, evaluate key practitioners and movements and their historical, cultural and political contexts.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more:
kaplanpathways.com/internship

Personal development activities (all courses)
Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Critique research data and apply statistical tools in the analysis of research quality.

Engineering, Science and Society
Explore and debate ethical issues surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture
Explore Western philosophy and its history, and analyse world events in a historical and cultural context.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore concepts of strategic management, and evaluate their impact on businesses.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)
Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Degree preparation online

If you are unable to come to the UK to study, you can take a degree preparation course online from your home country, before progressing to an in-person degree at your chosen university in the UK.

This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

Nottingham Trent International College is operated by Kaplan NT Limited (Company number: 05268287).
Registered office address: Palace House, 3 Cathedral Street, London SE1 9DE, United Kingdom.
