Course delivery
All Digital Pathways courses are taught online by Kaplan International Pathways.

Your path to university:

Costs of studying online
For more details on the cost of studying online, in addition to pathway course tuition fees, see our webpage: *kaplanpathways.com/uk-digital-learning*

Accepted English tests: We accept UKVI IELTS and several alternatives. For full details, see: *kaplanpathways.com/uk/ielts*

Choose your undergraduate degree

Our Digital Pathways courses offer progression to a wide range of undergraduate degrees and partner institutions – see below for a high-level summary. To explore the specific degrees available, click the subject areas or logos below, or visit our online Degree Finder: *kaplanpathways.com/digital-course/ug-degrees*

Internships: all Digital Pathways courses can include an optional integrated online internship. This finishes in time for you to still start your university degree on schedule, and is a great way to gain valuable work experience and improve your employability, even before you start university.

Degrees available in:

- Art and Design
- Building and Architecture
- Business and Finance
- Computing
- Education
- Engineering
- Environment and Agriculture
- Hospitality and Tourism
- Law
- Marketing and Media
- Mathematics
- Music and Performing Arts
- Science and Health
- Social Sciences and Humanities

	4 terms	£24,200	May 2028 > May 2029	i	2 terms of Extended English and Skills modules

* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree, university and pathway course from our online Degree Finder: *kaplanpathways.com/digital-course/ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Kaplan International Pathways

Foundation Certificate

for Business, Law and Social Sciences

2/2

Common modules taken by all students:
- English for Academic Purposes
- Extended Project

You will also take 2 or 3 of the following modules that fit your degree and career goals†:
- Business Organisations and Management
- Contemporary Global Issues
- Economics
- Historical Perspectives
- Intermediate Mathematics
- Logic and Critical Thinking
- Mathematics
- People, Culture and Society
- Statistics

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

i Optional integrated online internship
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term of your course.

You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5:
your course will typically include Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Science
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5:
you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

† For some degrees, your university will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

Accounting
Understand financial data to support business decisions. Gain confidence in accounting principles and performance tools.

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Organisations and Management
Examine key concepts in management theory and practice, and discuss issues relating to management in modern organisations.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Economics
Explore how markets and global forces impact the economy. Apply economic thinking to real-world challenges.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Extended Project
Learn how to plan, carry out and report an extended project; you can choose a project topic that matches your degree and career goals, and personal interests.

Historical Perspectives
Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology
Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Marketing
Discover how businesses connect with customers and create value, using effective planning and communication across various channels.

Mathematics
Develop your mathematical skillset in areas such as algebra, decision maths, probabilities and statistics.

Organisational Behaviour
Learn how people, culture, and leadership shape success. Build insight to lead and work well with others.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Quantitative Methods
Use data and digital tools to solve business problems. Build confidence in analysing information for smart decisions.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

The Business Environment
Examine real-world forces shaping business. Build skills to think critically, act ethically, and innovate.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Online internships
Following academic study, you'll take a one-term online work placement if you study a pathway course with internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more on our website:
kaplanpathways.com/internship

Personal development activities (all courses)
Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to develop your networking skills, something that can be really helpful when you go on to start your career.

† For some degrees, your university will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Accounting and Finance
Evaluate various financial and accounting concepts, models and techniques, and apply them to a firm's strategic decision making.

Advanced Mathematics
You'll develop a wide range of mathematical and analytical skills essential for postgraduate study in mathematics, business and related disciplines.

Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Develop a comprehensive mathematical skillset, including the analytical skills required for postgraduate study.

Engineering, Science and Society
Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Organisational Management
Evaluate the key issues, theories and techniques relating to organisational behaviour, environmental analysis and global strategy.

Practical Training for Science and Engineering Research
Research required skills, complete a skills audit, and critically reflect on your participation in relevant training activities for progression in your area of study.

Project Management
Gain key skills in project management, and apply your knowledge to a project based on emerging technologies.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project; you'll choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)
Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Online internships
Following academic study, you'll take a one-term online work placement if you study a pathway course with internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more on our website:
kaplanpathways.com/internship

Personal development activities (all courses)
Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to develop your networking skills, something that can be really helpful when you go on to start your career.
