Notes

Foundation Certificate
for Business, Law and Social Sciences

Minimum English level: UKVI IELTS score*	Course length	Course tuition	Course start > Course end	Add-ons	Extra support
> Your Foundation Certificate options for degree entry in September 2028					
5.5 overall with no less than 4.5 in any skill	2 terms	£23,430	September 2027 > May 2028 January 2028 > August 2028	ⓘ	
5.0 overall with no less than 4.5 in any skill	2.5 terms	£25,170	November 2027 > August 2028		0.5 terms of English for Academic Purposes
5.0 overall with no less than 4.0 in any skill	3 terms	£25,170	September 2027 > August 2028		1 term of English for Academic Purposes

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/york/ipc-ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

University of York International Pathway College

Foundation Certificate
for Business, Law and Social Sciences

Common modules taken by all students:
- Language and Study Skills

You will also take 2 of the following modules that fit your degree and career goals†:
- 21st Century Media
- Advanced Mathematics
- Contemporary Global Issues
- Introduction to Economics
- Introduction to Law
- Robotics, Programming and Electronics
- State and Society
- Statistics

Extra support: for courses longer than 2 terms with no internship, you'll also take English for Academic Purposes in your first term.

Learn more about modules: you'll find module summaries later in this booklet.

ⓘ **Optional integrated online internship**
For selected course options and just a small extra fee (maximum £1,490), you can take an online internship as an additional final term while at the Pathway College in the UK. You will:
- apply and further develop your English language in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Foundation Certificate
for Sciences and Engineering

Minimum English level: UKVI IELTS score*	Course length	Course tuition	Course start > Course end	Add-ons	Extra support
> Your Foundation Certificate options for degree entry in September 2028					
5.5 overall with no less than 4.5 in any skill	2 terms	£25,100	September 2027 > May 2028 January 2028 > August 2028	ⓘ	
5.0 overall with no less than 4.5 in any skill	2.5 terms	£27,135	November 2027 > August 2028		0.5 terms of English for Academic Purposes
5.0 overall with no less than 4.0 in any skill	3 terms	£27,135	September 2027 > August 2028		1 term of English for Academic Purposes

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

† Please note: courses leading to Nursing degrees have slightly higher IELTS requirements:
2 terms and 3 terms with internship: 6.0 overall with no less than 6.0 in any skill.
2.5 terms: 6.0 overall, at least 6.0 in writing and with no less than 5.5 in all other skills.
3 terms: 5.5 overall with no less than 5.5 in any skill.

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/york/ipc-ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. † For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

21st Century Media
Study topical issues in media such as TV, film, games and the internet, and analyse media trends, issues and technologies.

Advanced Mathematics
Learn the mathematical skills needed for the study of Science and Economics, including the topics of calculus, matrices, vectors, algebra and trigonometry.

Biology
Understand the key concepts, structures and processes within biology.

Chemistry
Study physical, organic and inorganic chemistry, explore patterns in the periodic table, and learn to describe chemical reactions.

Computer Architecture
Discover the internal structure of microprocessor-based computer systems, and develop knowledge about the operation of low-level hardware and software components.

Contemporary Global Issues
Explore topical issues and their historical origins, and study the short and long-term implications of a variety of current affairs.

Electronics
The electronics module is designed to provide you with an introduction to the behaviour of electronic components and their use in circuits.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

Financial Accounting
Learn about standard accounting conventions, and the role of financial accounting within organisation.

Fundamentals of Artificial Intelligence
Gain an understanding of the basic concepts, processes and uses of AI, as well as design and implement a variety of learning systems.

Introduction to Databases
Have the opportunity to construct conceptual data models, and to design and implement a data model for an information system.

Introduction to Economics
Learn about micro and macro economics, and study aggregate economic behaviour and how an open economy works.

Introduction to Law
Learn about English law, and understand how to structure solutions to legal problems.

Introduction to Marketing Principles and Consumer Behaviour
Learn about basic theories of marketing and consumer behaviour, using real-world examples and individual consumer experiences.

Introduction to Programming
Develop problem-solving and analytical skills, combined with an understanding of fundamental programming concepts, algorithms and data structures.

Language and Study Skills
Develop academic English knowledge, and apply academic style to written and spoken work.

Management Accounting and Financial Management
Gain an understanding of key issues in management accounting, process costing, and profitability analysis.

Mathematics for Computing
Develop an understanding of the fundamental aspects of mathematical concepts related to computing.

Mathematics for Life Scientists
Learn the mathematics skills needed in life science studies.

Object Oriented Programming
Learn the fundamental principles of object-oriented programming using the C++ language.

Organisational Behaviour
Gain an understanding of management of work in organisations, and human resources and organisations in a global context.

Quantitative Methods and Information Systems for Business
Learn quantitative techniques used in industry, and analyse and interpret data and information systems in a business context.

Robotics, Programming and Electronics
Design and programme a robot, and design and build simple electronic circuits.

State and Society
Explore the fundamentals of politics and sociology, and consider the relationship between the state, society and the individual.

The Business Environment
Engage in interactive projects that integrate practical, real-life situations with your knowledge of business theory.

Statistics
Learn the skills needed to analyse and apply statistics in a range of ways.

Web Development
Create a high-quality website, incorporating developed web-based content using a web IDE and content management system.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

5.0 overall with no less than 4.5 in any skill	3 terms	£30,930	September 2027 > August 2028		1 term of English for Academic Purposes

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/york/ipc-pg-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Pre-Master's
for Business, Law and Management

Common modules taken by all students:
- Language and Study Skills
- Research Skills

You will also take 2 of the following modules that fit your degree and career goals†:
- Contemporary Issues in Society
- International Business with Law
- Introduction to Management
- Mastering the Social Sciences for the 21st Century
- Mathematics for Postgraduates
- Statistics for Postgraduates

Extra support: for courses longer than 2 terms with no internship, you'll also take English for Academic Purposes in your first term.

Learn more about modules: you'll find module summaries later in this booklet.

ⓘ **Optional integrated online internship**
For selected course options and just a small extra fee (maximum £1,490), you can take an online internship as an additional final term while at the Pathway College in the UK. You will:
- apply and further develop your English language in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the postgraduate module summaries section for more details.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Postgraduate module summaries

Contemporary Issues in Society
Develop understanding of political and social issues, including perspectives related to education and the media.

English for Academic Purposes (0.5-term English Language Pre-Sessional)
This module aims to develop your English language ability, and will give you an introduction into academic English and the study skills that you will need to be a successful student.

English for Academic Purposes (1-term Entry to Pre-Masters)
Learn English language skills in an academic context, and improve your writing and speaking skills.

International Business with Law
Achieve a broad understanding of the international business environment, including its financial and legal aspects.

Introduction to Management
Understand the functions of management within a practical context.

Language and Study Skills
Develop academic English knowledge, and apply academic style to written and spoken work.

Mastering the Social Sciences for the 21st Century
Develop knowledge and understanding of the social sciences that will give you the confidence to be successful in your future postgraduate study.

Mathematics for Postgraduates
Learn key differentiation and integration techniques, and study limits, sequences and series, equations of lines, planes and surfaces, and double and triple integrals and vector calculus.

Research Skills
Develop your design, organisational and critical thinking skills to conduct your own research project and evaluate the work of others.

Statistics for Postgraduates
Learn methods of probability and statistics, experimental design and sampling, and develop data handling skills.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.
