BSc (Hons) Software Engineering	**C1 S**

Education

BA (Hons) Early Childhood	**B**
BA (Hons) Education	**B S**

Engineering

BEng (Hons) Aerospace Engineering	**E1 S**
MEng Aerospace Engineering [1]	**E1 S**
BEng (Hons) Aerospace Engineering with Pilot Studies	**E1 S**
MEng Aerospace Engineering with Pilot Studies [1]	**E1 S**
BEng (Hons) Architecture and Environmental Engineering	**S**
BEng (Hons) Automotive Engineering	**E1 S**
BEng (Hons) Civil Engineering	**E1 S**
MEng Civil Engineering [1]	**E1 S**
BEng (Hons) Electrical and Electronic Engineering	**E1 S**
BEng (Hons) Mechanical Engineering	**E1 S**
MEng Mechanical Engineering [1]	**E1 S**
BEng (Hons) Mechatronics Engineering	**S**
BEng (Hons) Robotics	**S**

Environment and Agriculture

BSc (Hons) Environmental Science	**S**
BA (Hons) Geography	**B S**
BSc (Hons) Geography	**B S**
BSc (Hons) Wildlife Ecology and Conservation Science	**S**

Law

LLB (Hons) Law	**B**
BA (Hons) Law and Criminology	**B**

Marketing and Media

BSc (Hons) Digital Media	**S**
BA (Hons) Film Studies	**B**
BA (Hons) Marketing	**B B1**
BA (Hons) Media Production	**A**

Mathematics

BSc (Hons) Mathematics	**S**

Music and Performing Arts

BSc (Hons) Audio and Music Technology	**S**

Science and Health

BSc (Hons) Biological Sciences	**S**
BSc (Hons) Biomedical Science	**S**
BSc (Hons) Diagnostic Radiography	**S**
BSc (Hons) Forensic Science	**S**
BSc (Hons) Midwifery	**S**
BSc (Hons) Nursing (Adult)	**S**
BSc (Hons) Nursing (Children and Young People)	**S**
BSc (Hons) Nursing (Learning Disabilities)	**S**
BSc (Hons) Nursing (Mental Health)	**S**
BSc (Hons) Occupational Therapy	**S**
MSci (Hons) Optometry	**S**
BSc (Hons) Physiotherapy	**S**
BSc (Hons) Radiotherapy and Oncology	**S**
BSc (Hons) Sport Rehabilitation	**S**

Social Science and Humanities

BA (Hons) Creative and Professional Writing	**B**
BA (Hons) Criminology	**B**
BA (Hons) Criminology and Sociology	**B**
BSc (Hons) Criminology with Psychology	**B**
BA (Hons) Economics	**B**
BA (Hons) English Language and Linguistics	**B**
BA (Hons) English Literature	**B**
BA (Hons) History	**B**
BA (Hons) Philosophy	**B**
BA (Hons) Politics and International Relations	**B**
BSc (Hons) Psychology	**B**
BSc (Hons) Psychology with Criminology	**B**
BSc (Hons) Social Work	**B S**
BA (Hons) Sociology	**B S**
BSc (Hons) Sociology with Psychology	**B S**

Note:
Many of the degrees listed have an optional 1-year work placement.
1: 4-year course

4.5 overall with no less than 4.0 in any skill	3 terms	£21,060	June 2028 > June 2029	ⓘ	1 term of Extended English and Skills modules
4.0 overall with no less than 4.0 in any skill	3.5 terms	£24,570	April 2028 > June 2029	ⓘ	1.5 terms of Extended English and Skills modules
			July 2028 > August 2029		
	4 terms	£28,040	February 2028 > June 2029	ⓘ	2 terms of Extended English and Skills modules
			June 2028 > August 2029		

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/uwe-bristol/ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:
- Creative Practice and Portfolio
- English for Academic Purposes

You will also take 2 of the following modules that fit your degree and career goals†:
- Contemporary Global Issues
- Entrepreneurship
- Extended Project
- Logic and Critical Thinking
- People, Culture and Society

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ **Optional integrated online internship**
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.0: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.0: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5, plus students with UKVI IELTS 4.0 on a 3-term course, will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 on a 3.5 or 4-term course will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

- Computer Architecture
- Introduction to Databases
- Introduction to Programming
- Object-Oriented Programming
- Principles of Computing

If you're taking the Computer Science or Software Engineering pathway†, you'll also study:
- Artificial Intelligence
- Information Systems in Society
- Web Development

If you're taking the Cyber Security and Digital Forensics pathway†, you'll also study:
- Digital Evidence
- Introduction to Networking

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ Optional integrated online internship
For selected course options and an extra fee (maximum £1,490), you can take an online internship as an additional final term while at the College in the UK. You will:
- apply and further develop your English language skills in a professional setting
- build real-world experience related to your degree subject at university
- gain additional career skills and experience and boost your CV before your degree.

See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically take Extended English and Skills modules to improve your English language and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 and 3
- Independent and Collaborative Study
- Reading and Writing 2 and 3
- Speaking and Listening 2 and 3
- Study Skills Preparation

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

International Year One
in Engineering

Minimum English level: UKVI IELTS score*	Course length	Course tuition	Course start > Course end	Add-ons	Extra support
> Your International Year One options for degree entry in September 2028					
5.5 overall with no less than 5.0 in any skill	2 terms	£18,380	September 2027 > June 2028 January 2028 > August 2028	ⓘ	
5.0 overall with no less than 4.5 in any skill	2.5 terms	£19,890	October 2027 > August 2028		0.5 terms of Extended English and Skills modules
4.5 overall with no less than 4.0 in any skill	3 terms	£19,890	September 2027 > August 2028		1 term of Extended English and Skills modules

4.0 overall with no less than 4.0 in any skill	3.5 terms	£23,205	April 2028 > June 2029 July 2028 > August 2029	ⓘ	1.5 terms of Extended English and Skills modules
	4 terms	£26,560	February 2028 > June 2029 June 2028 > August 2029	ⓘ	2 terms of Extended English and Skills modules

*** UKVI IELTS alternatives:** we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts*

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/uwe-bristol/pg-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

UWE Bristol's International College

International Year One
in Engineering

Common modules taken by all students:
- English for Academic Purposes
- Mathematics for Engineers 1

If you're taking the Aerospace, Automotive and Mechanical pathway†, you'll also study:
- Design, Manufacture and Materials
- Fluid Mechanics
- Mathematics for Engineers 2
- Mechanical Stress and Dynamics
- Thermodynamics

If you're taking the Civil Engineering pathway†, you'll also study:
- Civil Engineering Field Study
- Civil Engineering Technology and Drawing
- Design, Manufacture and Materials
- Mechanical Stress and Dynamics
- Surveying and Geographical Information Systems (GIS) †

If you're taking the Electronic Engineering pathway†, you'll also study:
- Digital Electronic Systems
- Electrical and Electronic Engineering Principles 1
- Electrical and Electronic Engineering Principles 2
- Mathematics for Engineers 2
- Programming

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

Accounting
Learn the main principles and techniques used for financial reporting, analysis, and management accounting in a business context.

Artificial Intelligence
You'll gain an understanding of the basic concepts, processes and uses of AI as well as design and implement a variety of learning systems.

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Law
Learn about the legal principles that affect modern businesses, including contract law and company law.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Civil Engineering Field Study
Learn about Civil Engineering methodologies and gain field skills, as well as the ability to analyse place-specific information.

Civil Engineering Technology and Drawing
Explore key elements of Civil Engineering technology and systems, and develop your skills in sketching and in drawing.

Computer Architecture
You'll gain an understanding of the properties, functions and operations of a simple processing unit and its related digital logic sub-systems.

Contemporary Global Issues
Providing you with an introductory overview of key 21st century global issues and events and encourage you to critically evaluate their impact.

Creative Practice and Portfolio
Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments yourself.

Design, Manufacture and Materials
Explore various methods, tools, manufacturing techniques and materials, and develop practical workshop skills.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Digital Electronic Systems
Learn about digital design methods and systems, and how they function alongside engineering principles.

Digital Evidence
Introducing you to the key tools and techniques used for investigating computer crime.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

Electrical and Electronic Engineering Principles 1
Explore electronic component and circuit design, as well as the fundamental principles of electrical and electromagnetic signals.

Electrical and Electronic Engineering Principles 2
Gain a better understanding of magnetic and electromagnetic systems, as well as important skills required for electrical and electronic engineering.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with concepts of creativity, entrepreneurship and innovation, and learn how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Financial Institutions and Markets
You'll develop an understanding of financial systems and the role of commercial banking in a developed economy.

Fluid Mechanics
Explore the principles of fluid dynamics, including pressure, density, mass flow rates and Bernoulli's equation.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Systems in Society
Explore the role of information systems in contemporary society, examining how digital technologies shape organisations, communication, decision-making, ethical practice, and social, economic, and cultural change.

Information Technology
Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Digital Applications
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Intermediate Mathematics
Expand your knowledge of various mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to Databases
Have the opportunity to construct conceptual data models, and to design and implement a data model for an information system.

Introduction to Networking
Explore the fundamental concepts of computer networking, developing an understanding of network architectures, devices, protocols, and security principles that support effective communication between connected systems.

Introduction to Programming
Develop problem-solving and analytical skills, combined with an understanding of fundamental programming concepts, algorithms and data structures.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Management Accounting
Find out about the role of financial management in different organisations, and techniques for financial decision-making.

Marketing
Gain a comprehensive understanding of the main principles of marketing. Learn the skills to analyse and evaluate real-world applications of marketing concepts.

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Mathematics for Engineers 1
Gain a better understanding of algebra, modelling techniques and many of the other mathematical methods that are needed in engineering.

Mathematics for Engineers 2
Expand your knowledge of calculus, differentiation, integration and differential equations, as well as mathematical methods of engineering.

Mechanical Stress and Dynamics
Explore stress and strain, shear force and bending, Newton's laws of motion and more.

Object-Oriented Programming
Learn the fundamental principles of object-oriented programming.

Organisational Behaviour
Explore the fundamentals of organisational behaviour, and trends in organisational environments, structures and designs.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of areas such as electromagnetism, mechanics and thermodynamics.

Practical Skills for Art and Design
Develop your practical Art and Design skills through workshops and portfolio development opportunities.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Principles of Computing
This module will introduce you to the fundamentals of computing, looking at both software and hardware, in computer systems.

Programming
Learn the basics of programming, engineering principles in the software industry, and how to use software systems to solve engineering problems.

Quantitative Methods
Learn how to analyse business data using quantitative techniques. Understand how forecasting is used in a business context using data from a number of sources.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics. UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Surveying and GIS
Gain an understanding of data visualisation and effective cartography, as well as GIS data structures, level surveying and more.

The Business Environment
Understand how organisations work within their wider economic, environmental and social context, and how this impacts their decision making.

Thermodynamics
Analyse combustion-powered gas and steam power plants, and explore thermodynamic principles.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Visual Culture
Using an annotated visual research journal, evaluate key practitioners and movements and their historical, cultural and political contexts

Web Development
Create a high-quality website, incorporating developed web-based content using a web IDE and content management system.

UWE Bristol's International College
Undergraduate module summaries
3/4

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more:
kaplanpathways.com/internship

Personal development activities (all courses)

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.
